

Learning Design – Project Plan Approval

Date:

Course number and title:

Reviewers name:

Please take some time to review the completed project plan for this course. This document outlines the essential components of course development. The project plan should map identify: required course materials, assessments to measure student mastery of the course's learning outcomes and module objectives, module content items, and instructor resources. Each module should include theory, practical applications, and a variety of learning activities to fulfill the module objectives and course assessments. Your feedback and suggestions for both addressing concerns and enhancing the learning experience will significantly contribute to the success of Saint Leo University's Online curriculum.

If the project plan meets your approval, please select "Approved" below. If it does not, please select "Not approved" and provide specific comments regarding the course content/activities that require correction or modification. Once approved, this plan will be used by the Learning Designer to create frameworks to capture course content from the contracted developing faculty member.
